

CPC Bright Quench Oil 70

- CPC Bright Quench Oil 70 is blended from highly refined paraffin oil and specially additives. The oil possesses the high initial cooling and penetrating speed for use in quenching steel parts but the cooling speed is slower in final stage of quenching. The unique properties of the oil can make quenching steel parts get the highest hardness and well-distributed quenching to decrease distortion and cracking.
- The oil quality is very stable and not easy to degenerate for long-term use.
- The oil quality is superior to No.1 and No.2 charge oil of Japan JIS K2242.
- Packages: (1) in bulk
(2) 200 liter drum
- The typical data are listed as follow:

Sp. Gr., 15.6°C/15.6°C, D4052	0.8575
Viscosity, Kin., cSt @40°C, D445	27.2
@100°C, D445	5.00
Viscosity Index, D2270	110
Pour Point, °C, D6749	-24
Flash Point, COC, °C, D92	222
Color, D1500	1.5
Product No.	LB63070

Note: Typical properties are based on standard tests under laboratory conditions. Variations that do not affect product performance are to be expected during normal manufacture. Please consult your local CPC representative if you have any questions.
